Telefax: +49 2405 4548-14

## **OEM**

You want to outsource the machine vision and camera control part. Ask us:

Our experience includes system programming on intelligent cameras, image processing algorithms and the development of different graphical user interfaces for machine vision systems. Ask us for our references.

Our OEM-engagement is completed by training for your technical and sales team.

## **OEM-Development:**

- System programming
- Custom vision sensors
- Graphical user interfaces
- Related training
